ALANIA ENERGY

# CEDAR CITY ENERGY CAMPUS

## Equity Partner Briefing

Investment Opportunity & Development Status

September 15, 2026

Confidential — for discussion purposes only

PRIVATE & CONFIDENTIAL

# THE PROJECT HAS CROSSED THE HIGHEST-RISK DEVELOPMENT GATES

### 7,000 MW SCALE

Energy campus designed specifically to serve the massive power requirements of next-generation data-center loads in Cedar City, Utah.

### COMMITTED OFFTAKE

3,000 MW of offtake committed across three credit-worthy local counterparties; PPA execution is the final pending step.

ALANIA ENERGY

## 4,000 MW Expansion

### EMBEDDED GROWTH POTENTIAL

Approved data-center load ready to contract behind the initial phase, utilizing the same site, utilities, and City framework.

# EXECUTIVE SUMMARY

## 3,000 MW

**CONTRACTED REVENUE**

Committed long-term PPA capacity agreed to sign with three credit-worthy counterparties.

## 4,000 MW

**EMBEDDED GROWTH**

Approved data-center load ready to contract without repeating development risk.

## $8.0B

**SENIOR CAPITAL**

venue bond issuance for the City; Stifel has issuance.

## 100%

**PRIVATE OWNERSHIP**

ProjectCo retains title, depreciation, tax credits, and all merchant upside economics.

# OWNERSHIP & CAPITAL STRUCTURE

## PROJECTCO ECONOMICS

- ProjectCo holds 100% title to all generation assets.
- Captures full depreciation, tax credits, and merchant upside.
- Retains all project economics beyond PPA debt service.

## CITY PARTNERSHIP

- City acts as a conduit issuer and strategic partner.
- No City equity ownership or moral obligation.
- Fixed construction framework via executed agreement.

### CAPITAL STACK ANCHORING

Senior debt proceeds from the $7.0B municipal bond issuance are loaned directly to ProjectCo on a non-recourse basis to the City.

Sponsor and partner equity completes the capital structure, funding the final development bridge to financial close and construction commencement.

# DEVELOPMENT MILESTONES ARE SUBSTANTIALLY COMPLETE

| WORKSTREAM | STATUS | INVESTOR TAKEAWAY |
|---|---|---|
| Offtake | COMPLETE — EXECUTION PENDING | 3,000 MW agreed to sign; 4,000 MW approved load remains |
| Senior Financing | COMMITTED | Stifel agreed to lead $8.0B municipal bond issuance |
| Site Control | COMPLETE | 5,000 acres controlled; long-term ground leases completed |
| City Partnership | COMPLETE | Cedar City construction agreement executed |
| Utilities & Infrastructure | IN HAND | Water, gas, 350/550 kV lines, fiber and rail secured |
| Design & Procurement | UNDERWAY | Fluor engaged; long-lead equipment procurement in process |

# SITE INFRASTRUCTURE ADVANTAGE

**A fully enabled 1,800-acre site reduces repeat development risk and accelerates speed-to-market.**

### 5,000 ACRES CONTROLLED

Land under contract with long-term, financeable ground leases already completed.

### HIGH-VOLTAGE POWER

Two high-voltage lines (350 kV and 550 kV) located directly on the property. Battery production non-lithium based.

### WATER RIGHTS

1,000 acre feet water rights purchased and secured to support full-scale campus operations.

### NATURAL GAS

Will Serve letter received- 9″ adding 36″ line-Large-volume natural-gas will-serve secured for primary generation supply.

### FIBER CONNECTIVITY

High-capacity fiber infrastructure already on-site to serve data-center counterparties.

### RAIL ACCESS

Direct rail access on the property to support construction logistics, ongoing manufacturing and heavy equipment.

# THE DELIVERY TEAM IS ASSEMBLED AROUND THE CRITICAL PATH

## ALANIA ENERGY

**SPONSOR & OPERATOR**

Project sponsor contributing land and site value; retains operating control and sponsorship.

## FLUOR

**EPC CONTRACTOR**

Engaged for engineering, procurement, and construction; schedule complete and long-lead procurement underway.

## DIXIE POWER

**O&M & LAST-MILE**

Local utility identified to serve the last mile and operate the plant under performance standards.

## STIFEL

**SENIOR DEBT LEAD**

Agreed to lead the $7.0 billion senior municipal bond issuance for the City of Cedar City.

## CITY OF CEDAR CITY

**CONDUIT & FRAMEWORK**

Executed construction agreement fixing the build-out framework, approvals, and shared-facility interfaces.

## EQUITY PARTNERS

**PROJECTCO CAPITAL**

Participating in ProjectCo LLC to complete the capital structure and capture long-term economics.

# CAPITAL STACK OVERVIEW

| LAYER | INSTRUMENT & DESCRIPTION | STATUS / SIZING |
|---|---|---|
| **Senior Debt** | Taxable conduit revenue bonds issued by the City of Cedar City; proceeds loaned to ProjectCo; non-recourse to the City. | **$8.0B — Stifel agreed to lead** |
| **Construction Financing** | Bank construction facility rolling into term debt at commercial operation. | **To be arranged alongside senior issuance** |
| **Federal Support** | DOE Section 303 support for qualifying equipment and infrastructure, separate from the bonds. | **Scenario selection in process** |
| **Tax Attributes** | Depreciation and available federal credits retained by ProjectCo as owner. | **Eligibility confirmation in process** |
| **Sponsor & Partner Equity** | Alania Energy as sponsor (land/site value contribution) plus equity partners in ProjectCo. | **THIS RAISE** |

# EQUITY INVESTMENT OPPORTUNITY

VEHICLE & OWNERSHIP

## ProjectCo LLC

100% privately owned entity; holds title to all generation assets and project economics.

GOVERNANCE

## Sponsor Control

Alania retains sponsorship and operating control; customary partner consents and reporting.

USE OF PROCEEDS

## Development to Close

Funding for PPAs, FEED, design, EPC finalization, and construction working capital.

EXIT & LIQUIDITY

## Multiple Paths

Refinancing at commercial operation, expansion tranches, or sale of ProjectCo interests.

*Equity commitments are required ahead of financial close, with funding staged against key development milestones.*

# RISK MANAGEMENT FRAMEWORK

| NEXT STEP | RESIDUAL RISK | PRINCIPAL ACTION |
|---|---|---|
| Execute PPAs | LOW | Sign agreed drafts with three counterparties including lender protections. |
| Interconnection & FEED | MODERATE | Confirm full-nameplate interconnection and complete FEED study. |
| Design & EPC | MODERATE | Finalize civil/geotech and fixed-price, date-certain EPC terms with Fluor. |
| O&M Agreement | LOW | Document Dixie Power O&M and last-mile agreements with ProjectCo. |
| Debt Sizing & Close | MARKET | Finalize sizing, coverage, and ratings; complete bond documentation with Stifel. |
| Final Approvals | LOW | Complete City/County sign-offs and related-party disclosures. |

# PATH TO FINANCIAL CLOSE

**1**

## NDA & DATA-ROOM ACCESS

Immediate access to PPA forms, ground leases, City agreements, and utility documentation.

**2**

## MANAGEMENT & SITE VISIT

Direct engagement with the Alania development platform and physical site validation in Cedar City.

**3**

## TERM SHEET & DILIGENCE

Execution of indicative term sheet followed by parallel diligence alongside bond documentation.

### AVAILABLE FOR DILIGENCE

- PPA Drafts & Counterparty Credit Info
- Executed City Construction Agreement
- Fluor EPC Schedule & FEED Status
- Stifel Engagement & Bond Sizing
- Utility Will-Serve & Infrastructure Deeds

**EQUITY AND SENIOR CAPITAL TARGETED TO CLOSE TOGETHER AS CONSTRUCTION COMMENCES**

ALANIA ENERGY
